SUBJECT INDEX

ABSTRACTS of current Literature, 66, 143, 224, 312, 398, 484, 577, 661, 736, 810, 873, 918

ADRENAL: *see also* Endocrine; Hormones
— methylprednisolone therapy; gastrointestinal disturbances, 116
— prednisone plus mercaptopurine for acute leukemia in the elderly, 644
— steroids; effect on absorption of calcium, 92

AGE: *see also* Geriatrics; and under various systems and diseases
— advancing age and sensitivity to tranquilizers, 909
— age in relation to lung cancer, 159
— aged disturbed patients; prochlorperazine in management of feeding problems, 537
— aging and cancer; antibodies in relation to, 604
— aging; concepts of the medical profession in relation to; panel discussion, 591
— aging; dual nature of, 753
— aging; effect on connective tissue; discogenic disease, 195
— aging; fundamentals of; acceleration in rats by whole-body x-irradiation, 37
— aging; fundamentals of; comparison of mortality curve for humans with viscosity curve of gelatin during cross-linking reaction, 632
— aging; implications of cultural attitudes toward, 337
— aging institutionalized patients; H-3 (procaine, Novocain) therapy in, 785
— aging patients; basic concepts in rehabilitation of, 531
— aging patients with general paresis; effect of malaria, and of massive doses of penicillin, 855
— aging people; neurotic symptoms and predisposition, 328
— aging people; symposium on mental health of, 327
— aging process; timelessness and restitution re creativity, 353
— aging; White House Conference on, 373
— alterations in neurologic status with, 915
— and sex incidence of diseases resulting from atherosclerosis, 245
— and vitamin B_{12} deficiency, 903
— cancer: *see* Cancer
— cardiovascular disease: *see* Heart; Vascular system
— cerebrovascular disease: *see also* Brain; Nervous system; Vascular system
— elderly people; role of occult intestinal hemorrhage in anemia, 261
— elderly persons, psychiatrically hospitalized; physical problems of, 838
— elderly surgical patient; management of, a multiple responsibility, 298
— elderly woman; unilateral dysplasia of bone in, 778
— films on aging, 236
— geriatric: *see also* Geriatrics
— gerontology; professional development in, 345
— in cancer control, 30
— mental disorders: *see also* Mental
— old age institution; effect of methyprylon on sleep of residents, 269
— old age; old attitudes *vs.* modern methods, 519
— old age; security in; philosophical basis, 431
— older patients; substernal adenomas of the thyroid in, 556
— older patients with otosclerosis; mobilization of stapes, 277
— older people; Government's concern in mental health of, 359
— oldest reported patient resuscitated after cardiac arrest, 889
— patients past 50; acute leukemia in, 644
— rehabilitation: *see also* Rehabilitation
— retirement and pension; preparation for, 86
— senile osteoporosis: treatment with steroid hormone combination, 478
— senile recession: a clinical entity?, 122
— skin diseases in a Home for the aged, 140
— superannuated, longest hospitalized patients; rehabilitation, 467
— the aged; a stimulant (Ritonic) for, 292
— the aged; aim of treatment, 112
— the aged; amputation in, 901

— the aged and chronically ill; medical, nursing, and social programs for, in a small institution, 724
— the aged and infirm; evolution of a modern home and hospital for, 284
— the aged at St. Louis Chronic Hospital; long-term rehabilitation program, 210
— the aged; gastric ulcer in relation to tumor skin test reactions, 675
— the aged; hypertension and edema treated with hydrochlorothiazide, with and without syrosingopine, 795, 803
— the aged; intestinal symptomatology of amebiasis in; treatment, 449
— the aged; methods for improving operability in, 79
— the aged; panel discussion on surgery in, 501
— the aged; problems of, in industry (panel discussion), 762
— the aged; prominence of submaxillary glands in, 53
— the aged; psychiatric disorders, 698
— the aged; serious surgery in, 185
— the aged surgical patient; psychologic management of, 55
— the aging; Connecticut Medical Service plan for care of, 217
— the aging, health of; statement to Senate committee, 1
— the elderly patient; pentamethylentetrazol in treatment of, 625
— the elderly; pulmonary tuberculosis in, 572
AGING: *see* Age; Geriatrics
ALTERATIONS in neurologic status with age, 915
AMBULATORY geriatric patients: *see* Age; Geriatrics
AMEBIASIS: a problem of intestinal symptomatology in the aged, 449
AMERICAN GERIATRICS SOCIETY

AUTO-ANTIBODIES: *see* IMMUNOLOGY

BACKACHE, discogenic disease, and connective tissue function, 195
BACTERIAL TOXINS
— effect on cancer, 540
— effect on malignant melanoma, 378
BASIC CONCEPTS in the rehabilitation of hospitalized aging patients, 531
BEHAVIORAL disorders: *see* Mental
BENZONATATE (Tessalon): *see* Drugs
BILIARY TRACT: *see* Liver and Gall bladder
BIO-PSYCHO-SOCIAL entity; treating the patient as, 561
BLADDER
— gall: *see* Liver and Gall bladder
— urinary: *see* Urinary bladder
BLOOD: *see also* Vascular system; Heart; and under constituent involved
— anemia in the elderly; role of occult intestinal hemorrhage, 261
— antibodies in cancer and nontumorous diseases, 4, 16, 604, 675
— cholesterol: *see* Cholesterol
— coagulation defects (prothrombin, thromboplastin) induced by long-term anticoagulant therapy, 419
— count and volume in the aged surgical patient, 79
— hemorrhagic and thrombo-embolic complications re anticoagulant therapy for cerebrovascular disease, 823
— iodine: *see* Iodine
— leukemia, acute, in patients over 50 years old, 644
— leukocyte count; effect of H-3 (procaine, Novocain) therapy on, 785
— pernicious anemia; differential diagnosis re vitamin B_{12} deficiency, 903
— potassium: *see* Potassium
— serum; detection of cancer antigens in, 4, 16
— sodium: *see* Sodium
— tests for syphilis in aged patients with general paresis, 855
— urea nitrogen: *see* Nitrogen
BLOOD PRESSURE: *see* Vascular system; Heart
BONE: *see also* Joints; Calcium
— amputation in the aged, 901
— chips; calcium absorption by; effect of parathyroid hormone, 92
— discogenic disease, backache and connective tissue function, 195
— fractures; management of, in the aged, 501
— marrow: *see also* Blood
— marrow in leukemia in patients over 50 years old, 644
— mineral; lability of; relation to osteoporosis, 92
— osteoarthritis; liothyronine therapy in, 48
— osteoporosis; a hard look; etiology, histology, 568
— osteoporosis, senile; treatment with steroid hormone combination, 478
— stapes; mobilization of in otosclerosis, 277
— unilateral dysplasia of, in an elderly woman, 778
BOOKS RECEIVED: 156, 325, 589, 673, 887, (review) 930
BOWEL: *see* Gastro-intestinal tract
BRAIN: *see also* Mental; Nervous system
— anticoagulants; evaluation in cerebrovascular disease, 823
— brain damage; detection of, 698
— cerebral and carotid arteries and blood flow, 823
— cerebral arteriosclerosis: *see also* Vascular system
— cerebral infarctions; age and sex incidence, 245
— cerebrovascular accident with hemiplegia followed by unilateral bone dysplasia, 778
— cerebrovascular disease; (panel), 823
— cerebrovascular insufficiency, 257
— chronic brain syndrome and cerebrovascular disease in the aged; H-3 (procaine, Novocain) therapy in, 785
— EEG and brain disease in psychiatrically hospitalized *vs.* community subjects, 838
— general paresis in aging patients treated with massive doses of penicillin and with malaria; tests on cerebrospinal fluid and blood, 855
— neurologic status; alterations with age, 915
— sleep; effect of methyprylon on, 269
BRITISH GERIATRICS SOCIETY; change of name; meeting, 236
BRONCHI: BRONCHITIS: *see* Lungs and Bronchi
BUNDLE-BRANCH BLOCK: *see* Heart

CALCIUM: *see also* Bone; Parathyroid
— absorption re bone; effect of vitamins and hormones on, 92
— excretion in case of unilateral bone dysplasia, 778
— hypercalcemia in cancer patients; relation to hormone therapy, 379
— of serum; effect of H-3 (procaine, Novocain) therapy on, 785
CANCER: *see also* Tumors
— antibodies and auto-antibodies; detection of; possible use of polysaccharide antigen in prevention, 16
— antibodies to amino acids and other key substances, and and an antibody inhibitor in, 604
— antigens; detection in human serum by Schultz-Dale method, 16
— carcinoma of the lung; relationship to cigarette smoking; precancerous lesions, 159
— complex nature of, 689
— control, in view of present background; genesis; early diagnosis; treatment, 30
— effect of erysipelas, toxins, cholera, typhus, malaria, tuberculosis, syphilis and leprosy on, 540
— host-tumor antagonism, 378
— immunology; detection of tumors by skin testing of polysaccharide-antibody complexes; relation to gastric ulcer in the aged, 675
— immunology; melanoma polysaccharide S.S. and P.L.S.; intradermal reaction, 4
— malignant melanoma; beneficial effects of acute concurrent infections or of toxin therapy on, 378
— the aged cancer patient; psychologic management, 55
CARBOHYDRATES: *see also* Diabetes
— cancer polysaccharides and antibody complexes; intradermal reaction, 4, 16
CARCINOMA: *see* Cancer
CARDIAC; CARDIOVASCULAR: *see* Heart; Vascular system
CAROTID ARTERIES: *see* Vascular system; Brain
CAROTID SINUS massage in paroxysmal atrial fibrillation, 200
CAUCASIANS: *see* Race
CEREBRAL: *see* Brain
